WORKING WITH NATURE

The local brand Siargao Green Artisans produces earthy, organic and eclectic furniture made from upcycled local wood, rattan or bamboo. They also produce non-wood pieces such as the terrazzo which is made of cement and glass. Its creative team is composed of 17 craftsmen—including construction workers-turned-furniture makers—who are dedicated to telling their stories through the unique pieces they create.

BRIGHT AND BEAUTIFUL

The Hanami Luxury Soy Candles by Portoro is not only decorative but made from sustainable materials resulting in emissions which are not harmful. Designed with delicate florals embossed onto the fine porcelain holders, the candles will brighten up bedrooms, workspaces and living rooms even when unlit.
